

If you act as consumer the following applies to you:

The right of revocation

You have the right to revoke this contract within a period of two weeks without mentioning any reasons. The **period of revocation** lasts fourteen days starting with the day of conclusion of the contract. In order to execute your right of revocation, you must inform me:

Attorney

Zahra Oubensalh

Email: kanzlei@oubensalh.de

by means of an unambiguous declaration (for example by a writing sent by post, fax, email) about your decision to withdraw from this contract. You may use the annexed sample - revocation form to do so. It is however not compulsory to use the form.

In order to maintain the period of revocation, it is sufficient, if you inform me about the execution of your revocation right before the termination of the revocation period.

The consequences of revocation

If you revoke this contract, we are obliged to return all payments received by you, including delivery costs (with the exception of the additional costs ensuing from the fact, that you chose a way of delivery, different from the cheapest standard delivery, we offered to you) immediately and at most within a period of two weeks starting from the day, we received your notice of revocation of the contract. For our payment return we use the same means of payment you used in the original transaction, unless another means of payment were explicitly agreed upon with you. In no case you will be charged fees for a payment return.

In case you demanded a start of our services within the period of revocation, you are obliged to pay us an appropriate amount of money corresponding to the part of the services rendered by us in comparison with the overall services to be provided according to the contract until the time you informed us about the execution of your right of revocation.

I explicitly agree, respectively I demand that the attorney Ms Oubensalh starts rendering her services immediately, in spite of the period of revocation not having expired yet. I know that my right of revocation expires after complete rendering of services.
